EVACUATION DAY.

One Hundred and Twelfth Anniversary Celebrated by New Yorkers.

NEW YORK, Nov. 25 .- The one-hundredand-twelfth anniversary of Evacuation day was celebrated by all the patriotic societies of this city and Brooklyn to-day. This afternoon the Old Guard paraded to the Battery, where exercises were held and a new American flag raised on the great staff. At the minute of sunrise, General Earl, who is member of the Society of the War of 1812, holsted a large American ensign to the top of the tall flagstaff in front of the mansion. while his sons manned the gun and fired a salute. The salute was fired from the very spot where, on Nov. 25, 1783, General Washington fired a salute to mark the evacuation

of the city by the British troops.

The Daughters of the Revolution celebrated the day by a reception and tea at the Waldorf. Five hundred guests were present.

Dr. George R. Vandewater, chaplain-general of the society, made the address of the

AND THE TREASURY STATEMENT JUGGLERS ARE IN A PLIGHT.

Their Predictions of a Surplus for November Blasted Through the Slipping of an Unseen Cog.

CARLISLE IN A DILEMMA

FORCED TO CHANGE THE TENOR OF HIS FORTHCOMING REPORT.

Cannot Now Picture the Bright Outlook He Hoped for When He Made His New York Address.

WASHINGTON, Nov. 25 .- There appears to be a serious break in the machinery of the Treasury Department by which the daily statement of the condition of the month's finances are manufactured to ormonth just what the surplus or the deficit ower & Drake Three Bar1889.... 1.25 for that month would be, and the pub-ower & Drake Four Bar1886.... 1.50 lished figures at the end of the month have verified these predictions with surprising accuracy. But this month there is a cog 1.75 loose somewhere, and the surplus predicted 2.00 | for November falls to materialize. On the contrary, the outlook is for the customary 1.75 deficit. This is all the more disappointing because Secretary Carlisle had hoped to lay before the Republican House when arfalt Amour 1.50 gradually becoming self-supporting, and that no new tariff legislation for raising revenue is necessary

> At the beginning of this month it was predicted with much satisfaction at the Treasury Department that deficits were a thing of the past, and that hereafter every month would show a steady increasing of between \$2,000,000 and \$3,000,000 was anticipated, and it was expected that by the end of the calendar year the deficit would have been reduced to about \$10,000,000, but lay. The treasury statement this afternoon shows that in spite of all the old time-worn tricks of jugglery, the deficit for the month is still \$3,118,649.93. This, of course, destroys all hope of a surplus for this month, and the officials are now bending all energies to keeping the deficit down

The explanations of the officials do not explain anything. Hitherto the burden of the responsibility for the frequent deficits have been ascribed to the disappointing receipts from the Internal Revenue Departof deficits. The receipts from internal revenue have steadily maintained that average during this month, but the deficit remains nevertheless. This destroys the last refuge of the administration, and it cannot longer of the many claborate occasions that have been celebrated in Atlanta since the Cotand efforts to manufacture a surplus, shows ton States and International Exposition opened. of his department. It was stated at the department to-day that there was no intention of issuing bonds until after the Republican House had been given an opportunity by President Cleveland to initiate remedial legislation, but that if no relief was afforded more bonds would be thrown on the market; from which it is plain that Mr. Cleveland will attempt to saddle a portion of the responsibility for the further increase of the national debt, which, since the beginning of his administration, has been increased by his mismanagement by \$305,856,047, on the Republicans of the House.

THOSE BERING SEA CLAIMS.

dered by the New York committee to the people of Atlanta at the Kimball House. For this event twelve hundred invitations Criticisms of Senator Morgan Anwere issued, and it was probably the most brilliant affair of the kind ever seen in the swered by Sir Julian Pauncefote. WASHINGTON, Nov. 25 .- The British embassy to-day received from the Foreign Office the full correspondence respecting claims for compensation on account of A Saloon Lonfer Kills His Wife, but British vessels seized in Bering sea by United States cruisers. Brief cable extracts from the report have appeared, but CLEVELAND, Nov. 25. - Bushrod Kelch | the complete correspondence is full of infor several years has done little but drink | terest, as it brings out the spirit with whisky and loiter about saloons. A few which Sir Julian Pauncefote, the British weeks ago his wife obtained a divorce from embassador, answered the criticisms of him. Ambulances conveyed both to the Deaconess's of the claim, Sir Julian wrote: "Strong party feeling would seem alone to account for the rejection of so just and desirable Hospital, where Mrs. Kelch died immediately on her arrival. Another concluded from the fact that the offer of the lump sum and its acceptance appeared in notes of the same date that the offer was made without previous investigation, and was in-stantly 'snapped at' by her Majesty's gov-ernment, whereas the compromise recorded in those notes was the result of laborious investigations, which were carried on during the whole summer. There can be no doubt that these inaccuracies were calculated to prejudice the minds of many members of Congress, and also to turn public pinion against a settlement of the ques-

tageous to both parties. On March 15 Sir Julian wrote an elaborate enswer to Senator Morgan's criticisms on the claims. After answering one after anthe claims. After answering one after another of the Senator's statements he adds:
"The vituperative epithets used were quite unmerited. The objection is not well founded in fact, and apparently is based on a mistaken view of the British navigation laws." After quoting the British shipping laws 'Sir Julian proceeds: "Why should that American citizen be called 'a rascal?" What law has he violated by advancing money for the prosecution of a lawful Canadian industry carried on by Canadians in Canadian vessels? In what respect has the United States government been the United States government been 'robbed,' considering that it has no property in the fur seal, as was solemnly adjudged and declared by the tribunal of arbitration at Paris? These are questions which, I submit, can only be reasonably answered in a sense absolutely fatal to Senator Mor-

Anatolia Now Tranquil. (Copyright, 1895, by the Associated Press.) CONSTANTINOPLE, Nov. 25.-The United States minister, Alexander W. Terrell, has received a dispatch from Antab announcing Mission. These missionaries are Dr. and Chicago limited and a freight train. Mrs. Americus Fuller, the Rev. Charles S. Sanders, Mrs. A. M. Trowbridge, Miss Ellen M. Price, Miss Elizabeth M. Trowbridge and the English governess, Miss McDonald, The missionaries add that full protection was uses of Socialist members of the Reichstag | afforded them by the Turkish authorities when it was demanded from the Porte by Mr. Terrell. The latter says he is now satised that the 172 missionaries in Anatolia are safe. Definite information has been received the chief of police. It is reported that the here that the missionaries attached to the station at Kharput have left that point un der escort for Constantinople

From what can be learned here, it would seem that the situation in Anatolia appears to be much more tranquil than for some time past, and there is no doubt that efforts are being made to maintain order in the districts where disturbances are threatened and to suppress disorders where outbreaks have occurred. All danger is now passed however, even in Anatolia. The Governor of Hadjin, who had threatened to burn the convent there and set fire to the barley fields in the vicinity, has, owing to the strong representations made to the Porte on the subject by Mr. Terrell, been recalled. and his conduct will be inquired into. The members of the American colony here, as well as other foreign residents of this city and vicinity, join in praising the energetic and effective action of Mr. Terrell under very trying circumstances. There seems to be no reasor or doubting that his representations to the Porte bave been the means of saving American life and preserving American property.

The main question now being discussed between the Porte and the representatives of the powers is that of adding four extra guard ships to the little foreign fleet in the Bosphorus, Great Britain, Italy, Russia and Austria demanding firmans for the passage through the Dardanelles of an extra gunboat, to be attached to their respective embassies. Although the demands were made over a week ago, on the ground that the foreign population of Constantinople then needed this additional protection, the Sultan still holds out in his reent is enabled to give the view of the case taken by the Turkish government. It is as possess the right to have two guard ships that the proposed increase of the number of foreign war vessels, under the present condition of things in the Turkish empli powers. In addition, the Porte points out number of guard ships attached to the emnote which the Porte has sent to the representatives of the powers in reply to their considered at the British, Russian, Italian called and a joint reply may be sent to the Porte. The substance of the Porte's note will also be telegraphed to the different Ottoman embassies and ministries abroad with instructions to inform the governments of the stand taken by the Sultain in this matter. In addition, the Turkish representatives at London, St. Petersburg Rome and Vienna will be instructed earnestly request the four powers not to insist on their demands in connection with the proposed extra guard ships, While the above is, in brief, the reply which the Porte is sending to the four powers, it should be added that, in political circles, the repugnance of the Porte to grant the firmans applied for is attributed to the belief which is said to exist among the Turkish Ministers and Abdul Hamid' entourage, that to grant the firmans would be a sad blow to the dignity of the Sultan and direct proof of lack of confidence on the part of the powers in his ability to govern and maintain order. But behind this it is claimed lurks a fear on the part of the Sultan that the demanded increase in the number of foreign guard ships in the Bosphorus is really only a cloak for the intention of the powers to make a naval demonstration

in Turkish waters in case of renewed disworld, the battle lasting fourteen rounds. turbances in Asiatic Turkey.

In reply to the appeal directed by Baron
Von Calise, the Austrian embassador, to the Armenian Patriarch, to exert his influence to prevent another outbreak, which, it was feared, was the purpose of the demonstrations which the Armenian central revolutionary committee is alleged to have planned for this city, the Patriarch says that no such demonstration is contemplated by the Armenians, "Although," as he adds, "despair reigns among them, owing to the in- | When he had not returned at midnight his cessant arrests and exiling of Armenians. The Patriarch insisted that four hundred Armenians of this vicinity have recently been exiled to Anatolia.

The Hairinik, a local newspaper, which was suppressed last week because its editor refused to publish an article sent to him by the Turkish authorities, condemning "the intrigues of the Armenlans," has been granted permission to resume publication. The absence of news from Zeitoun, which the Armenians are still said to be holding in strong force, and the fallure of the government to furnish any information regardag the concentration of Turkish treops at Marash for the advance on Zeitoun, is causing some uneasiness, Besides, no news is obtainable concerning the rising of the Druses against Turkish rule, one of the most serious features of the whole situation. The financial situation continues hamper the government in ... s efforts to restore order to Asiatic Turkey, and there does not seem to be any sign of relief.

Much indignation prevails over the result, it being claimed that the prisoners were prosecuted under the wrong section of the customs act, and there is a feeling abroad that the authorities, in their feeling abroad that the authorities, in their management of the case, conducted it so as to help their own friends. The immediate release of all persons now under arrest on the charge of smuggling is confidently looked for, it being felt that the government cannot keep certain persons in custody while others are at liberty. It is possible that the board of revenue will now intervene and impose fines in all cases.

Full Indiana Delegation to Hold Conference To-Morrow Evening-

Ex-Speaker Reed at the Capital. Special to the Indianapolis Journal. WASHINGTON, Nov. 25 .- A meeting of e entire Indiana delegation has been

fled for next Wednesday evening. By

t time all the Indiana members will

e arrived in the city. The principal

dness of the meeting will be to discuss e attitude of the delegation in the present untest for House offices. During the discussion the fate of Captain McKee's candidacy will be determined. Mr. McKee today assured several members of the delegation who called at his rooms that he was unwilling to let his candidacy for Sergeantat-arms interfere with their support of any other candidates for office, and if the delegation decides that its best interests are to be found in the McDowell camp he will promptly abandon his contest for the office. The general opinion to-night is that Mc-Dowell will win the clerkship, but that the rest of the combine is by no means certain of victory. There is a strong feeling trains met on a sharp curve. Both engines | among the older men to let McDowell have the clerkship and then give Henderson the sergeantcy-at-arms as a consolation prize. Henderson has been in Congress some twenty years, and his old friends are very unwilling to see him entirely left out, even though they cannot support him for Clerk, in which case, of course, Mr. McKee's candidacy comes to an immediate end. In this The injured passengers are being taken to event Mr. McKee believes that his friends in the delegation will endeavor to provide a place for him, and he is willing to accept the office of journal clerk of the House, a place for which his long parliamentary training has peculiarly fitted him. Representative Steele is expected to-morrow, and much depends on the views that he will express. There was an unfounded story last night to the effect that Mr. Mc-Kee had abandoned his fight. Mr. McKee is in the hands of the Indiana delegation, and will be guided solely by the considera-

tion of their best interests. ARRIVAL OF MR. REED. An Associated Press dispatch says: The arrival of a number of Senators and members to-day, including ex-Speaker Reed, has served to increase discussion over the reorganization of the two houses of Congress, and the prospect now is that this will be the uppermost question in congressional circles until the House contest is settied and it is decided whether the Senate will reorganize. The fact that the speakership is universally conceded to Mr. Reed has had the effect of concentrating interest in the other elective offices, and it appears probable that the elimination of the speakership will not diminish the general concern over the result. Gen. Henderson and McDowell are still the only two candidates for the House clerication, and it is not believed that any dar's-borse candidates will develop between this time and next Saturday, von the House caucus will be held. Mclovell's friends are now only claiming that they are sale of a majority, but the Henderson mea, instead of conceding this, assert that Mo-Dowell's vote will be fifteen on twenty

short of sufficient to nominate. There is a possibility of a change in the contest for Sergeant-at-arms, but '9e rumors in that connection are too value to base a statement on. A Mr. Parker, of Kentucky, has announced himself as a cantention of holding a caucus on Wedner whom they can support as a body. There are twenty-three Republican members from

policy of the Republican Senators with ref-erence to the reorganization of the Sen-ate, and nothing definite will be known on that score until after the convening of the Senate. Senator Sherman, who is chairman of the Republican caucus, expressed the opinion to-day that the Republicans would hold a conference early in the session for consideration of this question. A majority of the Republican Senators here appear to advocate an effort at organiza-tion on Republican lines, but some of the older and more conservative of them pose a movement in this direction, contents that it would be impolitic to assure control of affairs and take charge of the committees without having a working pority in the Senate. Some Republican & ators who favor organization advance the idea that the Democrats will not demand a division when the election comes, and allow the Republicans to take it by default, Democratic Senators here do not confirm this view, and the indications are that they will hold the offices until the Republicans will hold the offices until the Republican show themselves able to take them. To secure this strength they will have to obtain some of the Populist votes.

Senator Peffer, who is generally regarded as the leader of the third party, is advocating the maintenance of an independent position, and it is considered probable that this advice will be followed to the extent of putting a ticket in the field as

It appears altogether probable that t question will be postponed until after t seating of the Utah Senators, which cann happen until some time in January or February, depending upon the expedition displayed in their election by the Utah Leg islature. It is altogether probable that by that time the Republicans will be in condition to claim recognition, and they will take it. There will be an effort on the part of some of the Senators to com-promise the claims of the silver and antiiblicans in connection with the committee on finance by enlarging the men one of the new places and the gold

men the other. TRIBUTES TO JACKSON.

Addresses by Attorney-General Har-

mon and Chief Justice Fuller. WASHINGTON, Nov. 25 .- Attorney-general Harmon to-day presented to the Supreme Court the resolutions of respect to the memory of the late Justice Howell Jackson, of Tennessee, adopted by the bar of the court. The Attorney-general paid an eloquent tribute to the dead jurist. Chief Justice Fuller responded in behalf of the court, and the resolutions were ordered spread on the minutes. Mr. Harmon, 12

his address, said: "The career of Justice Jackson is a tine cample of the efficiency of steadfast devo-ion to duties which come without self-ceking, and are met with diligence, care-
